

Pre-Conference Day, Wednesday 21 August 2024

Time	
8:00 - 8:30	Registration and Welcome Coffee
8:30 - 12:00	Internal Organizing Committee Meeting
12:10 - 13:30	Lunch Break
13:30 - done	Booth Preparation
18:30 - done	Welcome Dinner

Conference Day #1 - Thursday 22 August 2024

Time	Room A: Jasmine Room Robotics & Mechatronics	Room B: Rosella Room Smart and Unmanned Systems	Room C: Roiboos Room Applications and Strategy
	Zoom Link: 	Zoom Link: 	Zoom Link: 
8:00 - 8:30	Registration and Welcome Coffee		
8:30 - 9:00	Opening Ceremony Opening speech by H.E. Prabowo Subianto, Minister of Defense (President Elect 2024-2029 - Republic of Indonesia)		

9:00 - 10:15	Plenary Sessions (2 Keynote Speakers) <p style="text-align: right;">Budiman Sudjatmiko (DTC, ITB), Youmin Zhang (Moderator) C.J. Guo (MIT ILP), H.C. Park (Moderator) Youmin Zhang (Moderator)</p> <hr style="border-top: 1px dashed black;"/>
10:15 - 10:18	Moment of Silenta

10:18 - 10:30	Coffee Break		
Session Chair	H.C. Park (Konkuk University, S Korea) Rianto Adhi Sasongko (ITB, Indonesia)	Taesam Kang (Konkuk University, S Korea) Javensius Sembiring (ITB, Indonesia)	Youmin Zhang (Concordia University, Canada) Ema Amalia (ITB, Indonesia)
10:30 - 10:50	Prediction and measurement of hovering flapping frequency of under various air density and gravity condition <i>Lim Hyeon Jun</i>	Safe drone delivery using Float drone <i>Taiki Nakano</i>	Revolutionizing English Proficiency with AI English Speaking Coaches <i>Siti Nur Azizah Ma'ruf Amin, Rizky Andrika</i>
10:50 - 11:10	Towards fast-swimming speed of fish-inspired tail-beating vehicle <i>Nguyen Khanh</i>	Design and manufacture of unmanned aircraft wings with Pvc foam core as internal structure <i>Maulana, Dede Satria., Nugroho, Gesang</i>	Realizing a Golden Indonesia 2045: The Role of Sport for All in National Development Through a Sustainable Digital Ecosystem <i>Hayono Isman, Gema Sasmita</i>
11:10 - 11:30	Takeoff characteristics of flapping wings under the low air density <i>Giheon Ha</i>	Gardening Simulator Based on L-System Algorithm <i>Rizky Kharisma Nurhidayat Eka Putra</i>	Memory and Attention Enhancement through Brain-Machine Interfaces: A Review of Current Trends <i>Reza Darmakusuma, Indrasary Yoenie, Mathias Baumert, and Gerard J</i>
11:30 - 11:50	Experimental performance verification of a fast-swimming robotic fish <i>Khanh Nguyen</i>	Impact of Digital Technology Integration on Youth: Engineering Insights and Implications for Unmanned and Intelligent Systems <i>Idris Kusumanegara</i>	Dynamic Stability Derivatives Prediction of a Rectangular Wing Based on Sinusoidal and Triangle Wave Models using CFD <i>Novita Atmasari</i>
11:50 - 12:10	Review of Advanced Biofuel Production Processes: Innovations in Conversion Efficiency and Cost Reduction <i>Fitria</i>	Onsite Measurement Using CMOS MEMS Flow Sensors on Flapping Wings <i>Lung-Jieh Yang</i>	Investigation on Convolutional Neural Network with Interpretable Deep Learning Strategies for Concentrated and Distributed Features <i>Nayottama Putra Suherman</i>
12:10 - 13:30	Lunch Break		
Session Chair	Masafumi Miwa (Tokushima U, Japan)	Bambang Riyanto (ITB, Indonesia) Reza Darmakusuma	Ananda S Ivananto (Faction AI, Indonesia) Muhammad Iqbal (ITB, Indonesia)

13:30 - 13:50	Onsite Measurement Using CMOS MEMS Flow Sensors on Rotating Turbine Blades <i>Lung-Jieh Yang</i>	Fabrication of mimics underwater swimming robots <i>Seungyeon Lee</i>	Multi-Sensor Solutions for Smart Cities: Enhancing Urban Environments with AI Platform John Hassard, Abdurrakhman P, Agus Sukoco, Ridwan Suhud
13:50 - 14:10	A Lightweight Power Lines Segmentation Method based on Improved U-Net <i>Yulong Zhang</i>	Control System Design for Density Adaptive Flapping Wing Air Vehicle and Performance Test <i>Jiyeon Yu</i>	Adaptive Learning in Smart City Infrastructure: Real-Time Solutions with Faction's Technology Abdurrakhman P, Agus Sukoco, Rian Andriana, Ridwan Suhud
14:10 - 14:30	Development of a Vibration Mechanism for Testing the Performance of MEMS Sensor Under Vibrating Noise <i>Jeong-Hwan, Kim</i>	Position Control Tests of Water-Air Multicopter in Water (ONLINE) <i>Naoki Hatsuda</i>	Detecting Anomalies in Smart Cities: Innovations in Video, IoT, and Cybersecurity John Hassard, Nina Lestari, Dewi Tresnawati, Azizah Zakiah, Rian Andriana
14:30 - 14:50	Modelling of a butterfly-inspired flapping-wing Robot <i>Ze Chen, Wei He</i>	Multi-object Tracking on Lidar Point Clouds: A Deep Learning Approach with Greedy Matching and Mahalanobis Distance <i>Bambang Riyanto Trilaksono</i>	Advancing Smart Cities with AI: Integrating Acoustics, Text, Image, and Forensics Max Garza II, Agus Sukoco, Vitra Disa
14:50 - 15:10	Review of Digital Transformation in the Energy Industry: Advancements, Challenges, and Future Directions <i>Rega Renata Abdullah, Dewi Tresnawati, Daniel N.</i>	Bridging the Gap: Integrating Intelligent Assistant Systems from University Labs into Healthcare Practice <i>Mahmoud Shafik, Indrasary Yoenie, Vidya Ikawati, Daniel N.</i>	Transforming Urban Management: The Impact of Faction's Adaptive Multi-Sensor System Ananda S Ivannanto, Vitra Disa Pratama, Agus Sukoco, Rian Andriana
15:10 - 15:30	Coffee Break		
Session Chair	Keigo Watanabe (Okayama U, Japan) Nur Ahmadi (ITB, Indonesia)	Rais Zain (ITB, Indonesia)	Edi Leksono (ITB, Indonesia)

15:30 - 15:50	Enhancing Oil Refinery Facility Maintenance through Digital Twin Technology: A Comprehensive Review <i>Arief Suhariyono, Ridwan Suhud, Abdurrakhman</i>	UAVs Revolutionizing Precision Agriculture through Crop Monitoring and Pest Detection <i>Ngoc Anh Vu</i>	Innovations in Bidirectional Brain-Machine Interfaces for Intuitive Motor Control <i>Kazutaka Takahashi, Hayato Nakamura, Benny Rio Hermanto</i>
16:10 - 16:30	Advancements in High Altitude Platform Systems for Telecommunication: Autonomous Management and Communication Protocol Optimization <i>Alinda Nur Fitriana</i>	Utilizing UAVs for Forest Health Assessment and High-Resolution Imaging of Cover and Biodiversity <i>Vishnu K Kaliappan</i>	Design of Autonomous Launch System for HALE Take-off Phase with Light Based Sensors <i>Derren Audric Sudarto</i>
16:30 - 16:50	Preliminary Design Firefighting Amphibious UAV <i>Mochammad Agoes Moelyadi</i>	Rapid Prototyping: Accelerating UAV Development with Innovative Prototyping Methods <i>Ngoc Anh Vu</i>	Harnessing the Power of Digital Twins: A Critical Analysis of Seamless Integration from Design to Operations <i>Edi Leksono, Abdurrakhman, Vitra Disa</i>
16:50 - 17:10	Autonomous Navigation and Data Fusion Techniques for Unmanned Surface Vehicles in Bathymetric Survey <i>Pouria Sarhadi</i>	Bio-Inspired Locomotion and Sensing Mechanisms for Spider Robots: Enhancing Agility, Adaptability, and Robustness <i>Rida Ballaoui Bouddih</i>	Preliminary Design Firefighting Amphibious UAV <i>Muttaqin Arya Wijaya</i>
17:10 - 18:00	End of Conference Day #1 Sessions & Free Time		

Conference Day #2 - Friday 23 August 2024

Time	Room A: Robotics & Mechatronics	Room B: Smart and Unmanned Systems	Room C: Applications and Strategy
8:00 - 8:15	Registration and Welcome Coffee		
8:15 - 8:45	Day 2 Recap and Agenda Overview		

8:45 - 9:00	Welcoming Ceremony Welcoming Speech by: Sandiaga Salahuddin Uno (Ministry of Tourism and Creative Economy) Budi Arie Setiadi (Ministry of Communication and Information)		
9:00 - 10:15	Plenary Sessions (4 Keynote Speakers) Kazutaka Takahashi (Ruten Inc), Agus Budiyo (Moderator) Keigo Watanabe (Okayama U), Ary Setijadi (Moderator) Bambang Riyanto (ITB), Taesam Kang (Moderator)		
10:15 - 10:30	Coffee Break		
Session Chair	Agoes Mulyadi (ITB, Indonesia)	Khairul Ummah (ITB, Indonesia)	Adre Mayza (Neuro Engineering Group, Jakarta) Jumraini (Makassar Hospital)
10:30 - 10:50	Determination of Optimum Box-Wing Distance Based on Longitudinal Static Stability of UAV Configuration Using CFD <i>Mochammad Agoes Moelyadi</i>	Neural Interface Solutions for Sensory Impairments: A Comprehensive Review <i>Mathias Baumert, Vidya Ikawati, Reza Darmakusuma</i>	Optimizing Brain-Computer Interfaces for Addiction Treatment through QEEG and TCCD Analysis <i>Syahrul, Maria</i>
10:50 - 11:10	Review of the Impact of Digital Transformation on Energy Efficiency and Transition Strategy <i>Rega Renata Abdullah</i>	Aerial Surveillance with UAVs for Wildlife Conservation –Population and Behavior Insights <i>Vishnu K Kaliappan</i>	Neurofeedback and Addiction: Utilizing QEEG-Enhanced Brain-Computer Interfaces to Diagnostic ,evaluated and treat secondary insomnia <i>Adre Mayza, Elviana</i>
11:10 - 11:30	Autonomous Underwater Vehicles for Underwater Inspection: Navigation and Sensing Integration <i>Nico Prayogo, Bourhane Kadmiry, Pouria Sarhadi</i>	Advancing Project Management: A Critical Analysis of Integrated Mega Project Management Systems <i>Achmad Khoirudin</i>	Revolutionizing Addiction Treatment: The Potential of QEEG- TMS - Driven Brain-Computer Interfaces <i>Agus, Agung</i>
11:30 - 13:30	Friday Prayer/Lunch Break		

Session Chair	Kazutaka Takahashi (Ruten Inc, USA) Gerard Juswanto (Biak Hospital, Indonesia)	Khoirul Anwar (Telkom University, Indonesia) Onny Arifianto (ITB, Indonesia)	Rizky Andrika (DTC-ITB, Indonesia) Rahmat Mulyawan (ITB, Indonesia)
13:30 - 13:50	Innovative Approaches to Intellegent and Emotional Quotient: Integrating QEEG with TCCD , HBOT and Brain-Computer Interface <i>Jumraini, Anne, Gerard Juswanto</i>	Revolutionizing Agriculture: The Role of LEO Satellites in Precision Farming <i>Riza Muhida, Agung Harsoyo</i>	Enhancing Industrial Maintenance: A Critical Examination of Predictive Analytics for Asset Reliability
13:50 - 14:10	Advancing Addiction Treatment: The Synergy of QEEG , Hyperbaric Oxigen Therapy and Brain-Computer Interface Technologies <i>Retnaningsih, Hendry Gunawan</i>	Enhancing Maritime Safety and Efficiency with LEO Satellite Technology <i>Meiditomo S, Agung Harsoyo</i>	Optimizing Industrial Operations: A Critical Analysis of Enterprise Asset Management Solutions
14:10 - 14:30	Managed Service in the Industrial Zones: Challenges and Opportunities <i>Edy Susilo</i>	LEO Satellites: Transforming Disaster Management and Emergency Response <i>Riza Muhida and Agus Budiyo</i>	Enhancing Work Procedure Efficiency: A Critical Evaluation of Frontline Maintenance Workflow Digitalization Solutions
14:30 - 14:50	The Role of Managed Service in the Village Digitalization Program <i>Eko Santoso</i>	Telemedicine in Remote Areas: The Impact of LEO Satellite Connectivity <i>Henri Kasfy, Vidya Ikawati and Riza Muhida</i>	Real-Field Experiment for UAV Communications Based on Cellular Networks toward 6G Ubiquitos Connectivities <i>Dyan Ahadiansyah</i>
14:50 - 15:10	Current Trends in Telecommunication Maintenance: Focus on Fiber Optic Infrastructure <i>Muhammad Riza</i>	Green Data Centers: Pioneering Sustainable IT Infrastructure for the Future <i>Henri Kasfy, Benny Rio Hermanto</i>	ICIUS Committee Meeting

15:10 - 15:30	Integrating AI into Fiber Optic Splice Maintenance: Challenges and Opportunities <i>Asep Trena Setiawan</i>	Comprehensive Environmental Assessment through Sensor Fusion on UAVs: A Multispectral, LiDAR, and Thermal Camera Integration Approach <i>Kazuo Watanabe, Vishnu K Kaliappan, Harnios</i>	ICIUS Committee Meeting
15:30 - 15:45	Coffee Break		
Session Chair	Djarot Widagdo (ITB, Indonesia)	Agung Harsoyo (ITB, Indonesia)	Ahmad Firdaus (ITB, Indonesia) Hasballah Zakaria (ITB, Indonesia)
15:45 - 16:05	Advancements in Portable Autonomous Underwater Vehicles: Compact Design and Deployment Efficiency <i>Nico Prayogo, Pouria Sarhadi</i>	Development and Testing of Agricultural Land Monitoring System on Unmanned Model Aircraft <i>Irwansyah</i>	Driving Economic Growth through Innovation-Based Industries <i>Tedy Tri Tjahyono</i>
16:05 - 16:25	Optimization and Design of Propeller of High Altitude Long Endurance Aircraft <i>Angka Bayu Putranto, Muhammad Lucky Witjaksono, Faris Muhammad Tsaqi</i>	Balanced Inverse-Direct Design of Airfoil using Multi-objective Evolutionary Algorithm and Bayesian Optimization <i>Kemas Zakaria</i>	Nationwide Distribution of Economic Opportunities through Technology Clusters <i>Rizky Andrika</i>
16:25 - 16:45	Advances in Robotic Perception: Deep Learning and Probabilistic Graphical Models <i>Anton Satria Prabuwono</i>	Enhancing Refinery Operations: A Critical Evaluation of Supply Chain Planning & Optimization Strategies <i>Achmad Khoirudin</i>	Fostering a Brain-Based Economy: The Strategic Vision of Bukit Algoritma <i>Jerry Lumelle</i>
16:50 - 17:10	Advancing Collaborative Task Planning and Execution: Techniques for Human-Robot Teamwork <i>Anton Satria Prabuwono</i>	Review of Fault Detection and Localization Methods in Fiber Optic Networks <i>Muhammad Riza</i>	Building Sustainable Innovation Ecosystems: The Bukit Algoritma Approach <i>Ahmad Firdaus</i>
17:10 - 18:00	Closing Remarks & Free Time
